

Pictou County Rural Community Immigration Pilot (RCIP) Designated Employers

RCIP is employer-driven and supports both attracting new talent and retaining existing employees. Once designated, employers may support recommendation applications for genuine, advertised job vacancies that align with RCIP priorities.

This list does not indicate active hiring; being designated also serves as a tool for employers to retain the talent they already have.

Job seekers interested in RCIP should explore current opportunities through trusted sources like the [Job Bank](#) and follow the application instructions in job advertisements.

Note: Unsolicited requests for a job offer may not be considered.
